USER LICENSE

HOW IT WORKS

The only authorized way to obtain this digital software is through the download URL provided at the official website, or directly from the developer.

Your E-Mail, Phone Number and Real Name might be required by the system on download to track distribution of the software. The License either may be associated to your Name and E-Mail address, or may be distributed anonymously to the user without a tracking system. The purpose of this license is to inform the end-user about your rights as a user of this software, and occasionally, to track distribution of software.

WHAT YOU CAN AND WHAT YOU CANNOT DO

Irrespective of whether you own a valid license or not you cannot distribute this software.

You are not allowed to reverse-engineer the packed files, or share any such related files as that is considered breach of terms of agreement and leaking of confidential data.

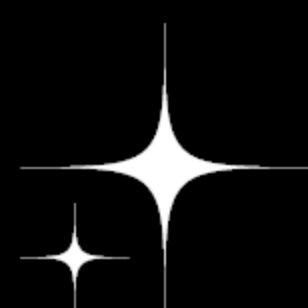

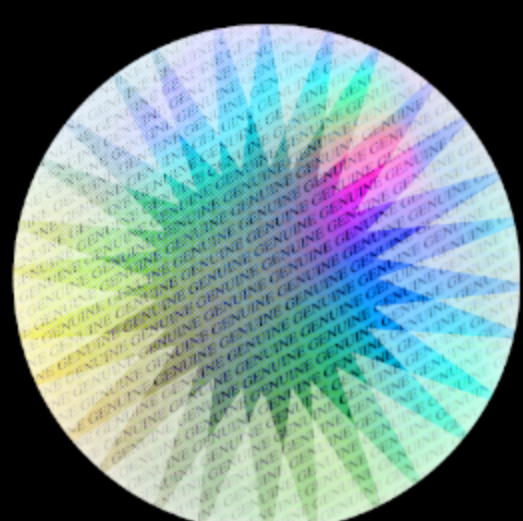

This software may or may not be distributed free of cost, if you have obtained this software at no charge, donation is appreciated through the link on the official website. License and Verification may be a part of this software for the sole purpose of preventing misuse of this software, or confidential data.

If you have pirated this software, you may be liable to legal action. This software is equipped with code to report the IP Address of every download, and hence pirating may lead to legal prosecution. Please delete any pirated copy(s) and legally obtain the software either through the download URL provided at the official website, or directly from the developer.
